

Statement of Product Application

To Allen Wright
From Kyle Kress, Technical Coordinator, Bartlesville, OK
Date July 20, 2015
Subject Ammonia Compressor Oil

Allen,

Ammonia Compressor Oil is recommended for OEM applications calling for paraffinic based compressor oils. Ammonia Compressor Oil will meet the following requirements of the OEM's listed below. Care should be taken to verify the exact OEM recommendation of base stock and viscosity before using Ammonia Compressor Oil.

- Blitzer
- Frigoscandia
- Grasso
- Howden
- Hippman
- Sullair
- Vilter
- Frick
- Saboe
- Mayekawa/Mycom

Special care should be taken using Ammonia Compressor Oil. We recommend a complete drain, flush and filter change before using Ammonia Compressor oil due to OEM fluids using synthetic base stocks, i.e. Mayekawa/Mycom alkyl-benzene based fluid.

We recommend that Phillips 66 Technical Services be contacted before making a switch to Ammonia Compressor Oil.

Best regards,

Kyle Kress
